

TOMORROW TRUST

Letter of Acknowledgment

9th of October 2018

Attention: Ali Gregg

C/O: CEO SLEEP OUT

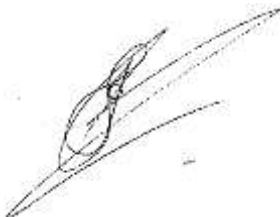

On behalf of the Tomorrow Trust team and our students, we would like to express our sincerest thanks to CEO SLEEP OUT for selecting The Tomorrow Trust to participate in the 2018 SCHOOL CEO SLEEP OUT. This event has assisted us in creating a greater awareness for the work we do in supporting Orphaned and Vulnerable children with holistic education, as well as aided us in creating new partnerships such as the one formed with the Harvard Crossroads Emerging Leaders Programme. We are proud to announce that through the connection made at the CEO SLEEP OUT that one of our Post Secondary students have been elected to be part of the Harvard Crossroads Emerging Leaders Programme.

It is with assistance since such as this that we can carry out our work and ensure that our students receive an education that will allow them to be self-sustaining individuals who become active members of our society and economy.

The Tomorrow Trust provides academic and psychosocial support to 1200 Orphaned and vulnerable children from Grade R to university. The holistic support given ensures children become self-empowered, and self-responsible contributing individuals to the South African economy, breaking the cycle of poverty.

We so appreciate our relationship and the value it has added to our programme.

Yours Faithfully

James Donald
Chief Executive Director
Tomorrow Trust
